

**Bridge Mills / Willow Gardens Housing Development**

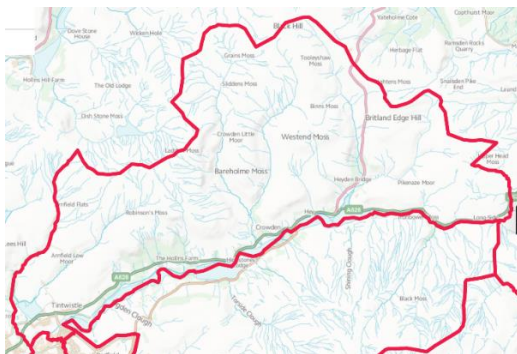

Dear Residents,

I have agreed with the site manager at the Bridge Mills/ Willow Gardens housing development that he will keep us updated as to the expected schedule of works on site each week so that we know what to expect and hopefully disruption can be minimised. The expected works for **week commencing the 25<sup>th</sup> November** are:

- MKC continuing plot foundation works
- Argyle NW continuing sewer installation
- Superstructure works have commenced on site
- There are no planned road closures for this week or next
- BT will need to make connections to the site at some point but this is not expected within the next two weeks. A further update will be issued if anything changes in regards to this.

Kind regards

Rob
